Introduction to EnchanterX

You will also learn some of the science behind Radionic Energy and the EnchanterX 2.0 software product. Although much of the inner workings of the software are encrypted (and the source code is unavailable to the public) to protect the years of research in developing this software, we will give you a brief overview of its scientific nature.

For those of you who would like to learn more about the science and history of Radionics, please take a look at the bonus book you received, titled: ***EnchanterX Radionic Energy Fields: The Science Behind Radionic Energy***

Let's get started with the software...

The Science Behind EnchanterX

“Radionics is the study of Radiation and Electricity –
Psychic Energy.”

All animate and inanimate objects, no matter how simple or complex, have an **Intrinsic Data Field**. These fields structure data related to the object or energy within them in a form or pattern. The study of these patterns can tell us about the object or energy creating the IDF. Studying the magnetic field of the Earth can tell us about the chemical makeup within the Earth’s core. By analyzing the emissions from a distant star, the star’s mass, size, distance, age and chemical composition can all be determined.

But what about the body? It is an animate object. It contains numerous energies. Does it have its own Intrinsic Data Field? Does everyone have an IDF as unique as they are?

The answer is, **yes**.

By its physical and electro-chemical nature, the human body is teeming with energies that comprise its IDF. Every living thing, from animals to trees also emits a personal IDF. We are constantly in contact with IDFs from the world around us. Plants, pets, friends, work associates, lovers and people you pass on the street all come in contact with your IDF. And your IDF comes in contact with them.

So what does this mean? It means that our energies are constantly being touched, influenced and even altered by the world around us.

Enter Radionics. **Radionics** is the study of these IDFs and their influence on our world. You may have heard references to this study under different names such as biofields, auras, psionics or chi. The term “Radionics” is made up of two words: Radiation and Electronics. While the term itself is relatively modern, the study of the body’s energy goes back to ancient times.

Have you ever woke up with that feeling that it is about to rain even though your windows and curtains are closed? Have you ever got the feeling that a friend of yours is troubled in spite of their laughter and wide smile? Have you ever had a premonition that an old friend whom you haven’t seen in

years and who lives in another state is experiencing pain? Some may call these 'instinctual' or 'being in tune'. Some may even go so far as to say 'psychic'. Well, in truth, they are all right.

These feelings are nothing more than instinctively being in tune with another's IDF. And that, bottom line, is psychic energy.

So, back to our question, 'Can we utilize this energy for our own purposes?' Can we help that troubled friend without talking to them about what might be troubling them? Can we call out to our long lost friend and let them know we care? Can we tell that police officer we don't need that speeding ticket? ('These aren't the droids you're looking for.')

By strengthening your own IDF, you can influence the people around you, even when separated by great distances. You can make a change in your world.

This is the study of **Radionic Energies**.

Today, practitioners of Radionics can use their energies or IDFs to influence the world around them. Whether it is for finding keys or finding a soul mate, Radionic Energy can be focused, harnessed and used to change lives.

The **EnchanterX Software** has been developed by expert practitioners of Radionic Energy. The software is designed to help you focus your own IDF and change your world. By entering a few parameters in the software of your intended desire, EnchanterX delivers a series of vibrations and frequencies that, when played aloud, influence your own IDF and allow you to harness your own Radionic Energy.

A practitioner of Radionics accepts that all is energy and energy can be affected by other energies. This energy can be detected by a practitioner utilizing his/her intuitive faculties, which is considered to be a right-brain function. Since the intuitive mind reaches beyond rational and logical thought (which are left-brain functions), a person can "tune in" to both his mind and personal IDF.

If you are in tune with your IDF, you can then detect both negative and positive influences on your own energy. Once these influences are recognized, they can be influenced by broadcasting your own energy. As a result, *you* become the influence on the energies around you.

By focusing on an IDF, you can influence the energies in the world around you. These energies can be used to help you succeed, improve relationships with others, kindle love, increase wealth, and the number of other parameters in the EnchanterX group of products.

Harnessing Radionic Energy, the science behind the magic, can help you live a healthier, happier, more productive life.

Ladies and Gentleman, we are proud to bring you **EnchanterX Version 2.0 X**- the only scientifically proven spell casting, magick, and psychic mind control software in the world.

Contents of the EnchanterX package

Using EnchanterX: Step by Step Guide

Installing EnchanterX 2.0:

- 1) Extract all files within the EnchanterX.zip folder.
- 2) Run “setup.exe” and follow the directions.
- 3) Download “129 Spell Tracks.zip”
- 4) Extract the contents of this folder in the “Tracks” directory located in the EnchanterX folder found in Program Files.

To Begin Using EnchanterX 2.0:

- 1) Launch EnchanterX 2.0.
- 2) Click the double-down arrow  to open the spell que. If no spells appear, click the LOAD button and add them to the que as needed; OR simply place all spell folder in the “Tracks” folder found in the EnchanterX directory.
- 3) Scroll down spell list and choose a spell that suites your respective cause.
- 4) To begin the Radionic Session, double click the track and follow the directions in the description field to the left of the track list. Headphones are highly recommended.
- 5) Visualize with eyes closed once a trance-like state has been induced using the Audio-Strobe device (flashing light) in the center of the EnchanterX interface. If the vision is lost of a moment, do not play Radionic Energy into thin air – Mute It – Then resume the session once the vision is back.

Remember, you are sending energy towards your spell or mental image. If you have a weak image, you are supercharging a weak future. Imagine in a clear, bright and vibrant way! This is key.

- 6) This action will set the EnchanterX software and radionic energy fields into motion. *Specific* Radionic tones will begin emanating from your speakers (or headphones) immediately. You will feel the awesome power our Radionics. At this time, it is best to concentrate on the outcome that you just chose. The longer the session is played, the more effective.

If you have a custom-spell select a Spell Track which most closely resembles that which you want and use it. The power is in the Radionic Frequency and not the title of the Spell Track.

The user should only play spell Tracks when accompanied by visualization. Please keep that in mind at all times.

The spells are fairly self-explanatory so we will not go into every single spell here, however, if you have any specific questions about which spell would work best in your situation, you are welcome to email your highly trained support department at support@enchanterx.com
